

## Henley Cricket Club

HCC senior section, return to cricket

1. You can practise in a household group (no limit on number of people), or **two people from different households**.
2. If you are practising with someone from outside your household, you must follow social distancing guidelines at all times.
3. All practice sessions must be booked online in advance. Players should arrive and leave promptly, and should not interact with the group practising before or after their session.
4. The Clubhouse will remain closed at all times.
5. Players should bring their own cricket balls and protective equipment. If equipment is shared, you should follow the latest Government [guidelines](#).
6. Players should not share cricket balls or protective equipment with anyone outside of their household. For example, the batsman should not handle the bowlers cricket ball.
7. If you display symptoms of COVID-19, or a member of your household displays symptoms, or if you are classified as extremely vulnerable on health grounds, then you should not come to the cricket ground.
8. Only members of Henley Cricket Club or Henley Juniors are allowed to practise at this time. The member (or if juniors, the parent(s) of the member) will be treated as the on-site representative of the club for the purposes of the ECB guidance only when visiting Harpsden facilities.
9. Players should minimise contact with the cricket net and the cricket stumps. Players are advised to sanitise the stumps before and after play.
10. Please wash your hands before and after using the outdoor facilities. Bring your own hand sanitiser where possible.
11. Under ECB guidelines, use of the club facility for practice is only possible under the guise of a supervisor. As a senior member of the club, you are designated the supervisor when using the facility, and therefore assume this responsibility. You must understand emergency procedure in the case of an accident.
